

CONSENT TO THE PUBLICATION OF MY SO-CALLED "PERSONAL DATA"

– I.E. MY SO-CALLED "LEGAL FICTION"

I, the "undersigned" (by providing my autograph with my fingerprints and, my original seal and the stamp of a secured creditor):

róbert of the family of sellei – a **living man** of spirit, soul, body, mind, flesh, blood and bone, a **living man** living on the Earth, according to the natural law/law of the land/earth, a **beneficiary**, a free sovereign autonomous **living human being** (with diplomatic immunity), who I am/who is also the owner, I was forcibly assigned by the "State of the Czechoslovak Socialist Republic" and the alleged so-called "State" — or the so-called "Corporation of the Slovak Republic", against my own free will, without my knowledge and/or my own voluntary decision and consent, the following so-called "**legal fiction**":

"Name and surname: Róbert Šellei, birth number: 840614/7145, date (day, month, year) and place of birth: 14/06/(June)/1984, (city) Topoľčany, (Postcode) [955 01], State: (former) Czechoslovak Socialist Republic, currently Slovak Republic, permanent residence: (street) Štefánikova trieda (No.), (city) Nitra, (Postcode) [949 01], (state) Slovakia (Slovak Republic), citizenship: Slovak",

I grant, on the basis of this so-called "**CONSENT TO THE PUBLICATION OF MY SO-CALLED "PERSONAL DATA" – I.E. MY SO-CALLED "LEGAL FICTION**", my voluntary and knowing consent, given without any pressure exerted on me by anyone, solely on the basis of my own free voluntary decision, as I saw fit, to ANYONE IN THE WORLD - ANY (not only) so-called "LEGAL and PHYSICAL PERSON, CITIZEN, CORPORATION", as well as any other so-called "ENTITIES" and every living being on planet Earth, BY ANY MEANS – WITHOUT ANY RESTRICTIONS, as anyone sees fit, to SHARE (PUBLISH) **MY SUBJECT LETTER, entitled "AFFIDAVIT OF A LIVING MAN", which is concurrently my "AFFIFAVIT"**, TO ANYONE AND ANYWHERE IN THE WORLD, together with the attached (**video**) **recordings from the place of sending and/or preparing to send my subject letter** and **my** above-mentioned - so-called "**personal data**" forcibly assigned by the co-called "states", i.e. **my** so-called "**legal fiction**", including the involuntarily, forcibly assigned to me – without me knowing thereof and/or against my own free will – so-called still "**valid personal documents and certificates**" issued by the so-called "**states and the Roman Catholic Church**" – this is my so-called "**legal fiction**", including **my** so-called "**identification document (CLC passport)**", which I currently (temporarily) use and which I sent on **31 July 2023** to so-called "multinational corporations, persons, governmental, intergovernmental and non-governmental organisations, authorities, joint ventures, executive agencies, supreme institutions and agencies (not only) of the EU" (but also) all over the world, including my entire public website "**vabanque.info**", where my subject letter, together with a lot of other information is published. Sharing (publishing) all this information can be done e.g. via the internet, by sharing (publishing) it on so-called "social networks", through the spoken word, radio waves, TV, press, or any other way.

This so-called "**CONSENT TO THE PUBLICATION OF MY SO-CALLED "PERSONAL DATA" – I.E. MY SO-CALLED "LEGAL FICTION"**" has an **UNLIMITED TIME VALIDITY** – it is valid "forever and ever" because I have decided so based on my free will and I authorise its sharing (publication), together with the above mentioned other data, to anyone in the world, under one condition, namely – without any additional modifications made by anyone, without adding or removing (blacking out – censoring) any, even a single letter in it/them, except for the photos of my face on the above-mentioned so-called "**identity documents**" – i.e. my so-called "**legal fiction**", which are already blacked out (censored) by me. These conditions also apply to all other so-called "documents, papers, deeds" and information related to my above-mentioned subject letter, together with my so-called "**personal data**" forcibly assigned to me by the above-mentioned so-called "states" – i.e. my so-called "**legal fictions**". All of the above is confirmed by my so-called "certified signature" (or, my handwritten autograph) on this "**CONSENT TO THE PUBLICATION OF MY SO-CALLED "PERSONAL DATA" – I.E. MY SO-CALLED "LEGAL FICTION"**". This method of so-called "signature verification" of my so-called "**legal fiction**", as well as anything else that is part of this perverse anti-human slave corporate mafia system (this so-called "jurisdiction"), of course I do not recognize, but in this case I found it appropriate to do so, and (not only) mainly for the protection of anyone who wants to engage in this worldwide public sharing of all information related to this, in the framework of his/her own "personal" protection from being sanctioned (in the form of so-called "imposing a fine" or any other so-called "punishment") by the so-called "state, kingdom and duchy", of which the individual in question, who chooses to further share (publish) the above information, is a so-called "citizen and part", (not only) in the context of the so-called "Data Protection Act – GDPR". On the basis of the above, anyone, anywhere (from any place on planet Earth) will be able to share (publish) all of the above, to anyone and anywhere in the world – with unlimited time validity and in unlimited quantity (number), without the possibility (risk) of any sanction on the part of (not only) the so-called "state, kingdom and duchy", of which e.g. the given human – the so-called "person" is a so-called "citizen" and with minimising the risk of so-called "prohibition" of sharing – publishing (e.g. by changing the so-called "legislation of European laws" within the so-called "states, kingdoms and duchies", which are members of the so-called "European Union", or so-called "laws" that have been/will be independently and separately

created by any so-called "state, kingdom and duchy", etc.). If such a so-called "ban on the publication" of this information would be issued and executed by anyone in the world – i.e. any censorship would arise on the part of e.g. (any) so-called "state", or anyone else, in such a case such a so-called "ban" – such a so-called "decision" and such "censorship" would be absolutely illegal – carried out solely on the basis of the will of a particular given "person and corporation" (so-called "state") who would have issued and/or implemented such order/decision and would be obliged to bear the consequences of such its unlawful actions, for which in such case it would be 100% criminally liable, including all individuals who would participate in this – i.e. in whatever way they would be involved and participate in such unlawful actions and would be equally responsible and obliged to bear the consequences based on such their actions therefrom.
